NEW FOREST NATIONAL PARK AUTHORITY

RESOURCES, AUDIT AND PERFORMANCE COMMITTEE – 03 NOVEMBER 2025

INTERNAL AUDIT - EXTERNAL QUALITY ASSESSMENT

Report by: Antony Harvey. Deputy Head of the Southern Internal Audit Partnership and Chief Internal Auditor to the Authority

1 Introduction

1.1 The purpose of this paper is to provide an overview of the alternative options considered in commissioning an external assessor to undertake the independent assessment of the Southern Internal Audit Partnership against the Global Internal Audit Standards in the UK Public Sector.

2 Contextual information

2.1 The mandate for internal audit in local government is specified within the Accounts and Audit [England] Regulations 2015, which states:

'A relevant authority must undertake an effective internal audit to evaluate the effectiveness of its risk management, control and governance processes, taking into account public sector internal auditing standards or guidance.'

2.2 From 1 April 2025, the 'standards or guidance' in relation to internal audit are those laid down in the Global Internal Audit Standards (GIAS), Application Note: Global Internal Audit Standards in the UK Public Sector (Application Note) and the Code of Practice for the Governance of Internal Audit in UK Local Government. The collective requirements shall be referred to as the Global Internal Audit Standards in the UK Public Sector (the Standards).

2.3 The Standards (8.3) require *'the Chief Internal Auditor to develop, implement and maintain a quality assurance and improvement programme that covers all aspects of the internal audit function. The programme includes two types of assessments:*

- *External assessments*
- *Internal assessments'*

- 2.4 The Southern Internal Audit Partnership’s Quality Assurance and Improvement Programme is provided at Annex 1.
- 2.5 The Standards (8.4) require that *‘the Chief Internal Auditor must develop a plan for an external quality assessment and discuss the plan with the Audit Committee. The external audit assessment must be performed at least once every five years by a qualified, independent assessor or assessment team. The requirement for an external assessment may also be met through a self-assessment with independent validation.’*

Form of External Quality Assessment

- 2.6 There are two approaches to meeting the requirement of an External Quality Assessment:
 - **A Full-scope External Quality Assessment (EQA)** involves an independent and qualified Assessment Team. This is a more expensive option, as there is less work required by the Southern Internal Audit Partnership. The EQA is conducted in accordance with the Quality Assessment Manual with most of the work conducted by the Independent Assessment Team.
 - **A Self-assessment with Independent Validation (SAIV)** is where the Southern Internal Audit Partnership performs the “self-assessment” portion and an external, independent qualified validators review the self-assessment portion and provides their “independent validation.” The SAIV is conducted in accordance with the requirements of the Quality Assessment Manual and the self-assessment team is responsible to execute all aspects of the requirements as defined therein. This is a more economical approach because the Southern Internal Audit Partnership compiles most of the work.
- 2.7 Both approaches include workpaper reviews, surveys, stakeholder interviews, and issuance of a report that provides a rating as identified by the Quality Assessment Manual, i.e., Full Achievement, General Achievement, Partial Achievement and Non-Achievement.

External Assessor

- 2.8 GIAS 8.4 sets out a requirement that when selecting the independent assessor or assessment team, the chief internal auditor must ensure at least one person holds an active Certified Internal Auditor designation.
- 2.9 The Relevant Internal Audit Standard Setters (RIASS) in their Application Note have determined that the qualification requirement in GIAS 8.4 (External Quality Assessment) should be replaced by a more comprehensive qualification requirement within the public sector.

2.10 The enhanced expectation within the public sector is that at least one person has the characteristics outlined for qualification as a chief internal auditor. The RIASS consider that such a person would normally have an understanding of the GIAS commensurate with the Certified Internal Auditor designation, including internal audit relevant continuing professional development and an understanding of how the GIAS are applied in the UK public sector. These matters must be considered as part of the selection process.

Independence

2.11 It is essential that there are no impairments to the independence of the external assessor or assessment team driven by past, present, or anticipated future relationships with the organisation, its personnel, or the Southern Internal Audit Partnership.

2.12 Appropriate due diligence has been carried out on the assessors and their assessments teams with which we have engaged to quote for the external quality assessment.

Scope & Frequency

2.13 There is a requirement that all internal audit providers undergo an external quality assessment performed by an independent and qualified assessor or assessment team at least once every five years to ensure conformance with the Standards.

2.14 It is permissible that more frequent external quality assessments are undertaken should this be considered necessary.

2.15 Given the requirement to supplement the external quality assessment with an annual self-assessment the outcomes of which will be fully and transparently reported to the Resources, Audit and Performance Committee, it is considered that an external quality assessment every five years remains a proportionate approach.

2.16 Should there be significant change to the arrangements within the Southern Internal Audit Partnership including changes in leadership, operating model, methodologies or excessive staff turnover, the Head of the Southern Internal Audit Partnership will further engage with Senior Management and the Resources, Audit and Performance Committee to discuss whether an additional external assessment (within the 5-year timeframe) would be appropriate.

2.17 The scope of the external quality assessment will include a comprehensive review of the Southern Internal Audit Partnership's:

- Conformance with the Global Internal Audit Standards in the UK Public Sector.
- Mandate, charter, strategy, methodologies, processes, risk assessment and internal audit planning.
- Performance measures and outcomes.
- Qualifications and competencies including those of the Chief Internal Auditor.
- Integration into the organisation's governance processes.
- Contribution towards the organisation governance, risk management, and control processes.
- Contribution to the organisation's operations and ability to attain its objectives.
- Ability to meet the expectations of stakeholders.

External Quality Assessment Providers

2.18 There are several organisations capable of providing external quality assessments, however, the requirement of public sector expertise does significantly limit the field. Consequently, the Head of Southern Internal Audit Partnership has engaged with the following providers to acquire details of approach and cost:

- Chartered Institute of Public Finance and Accountancy (CIPFA)
- JC Audit Training Ltd
- BHBi (in partnership with Littlejohn and Haley).

External Quality Assessment Providers Discounted

2.19 A further credible source of assessment provider would be the Institute of Internal Auditors (IIA), however, due to the IIA having undertaken the Southern Internal Audit Partnership's external quality assessments in 2015 and 2020 this was not explored for our 2025 assessment as it is considered a fresh perspective on conformance and operating practices would be beneficial and mitigates any perceived impairment to independence.

2.20 The Global Internal Audit Standards do enable provision for reciprocal peer assessments rotated among three or more organisations within the same industry sector.

- 2.21 Due to their nature there would be no financial outlay in adopting this approach, however, there would be the opportunity costs of the Head of the Southern Internal Audit Partnerships time in reciprocating any peer review requested of the SIAP.
- 2.22 The independent status of the external assessment is paramount and there may be a perception that this is diminished as part of the peer review approach. As such the collaborative approach has not been explored further as part of this paper.

Implications for Multi Service Providers

- 2.23 The benefits of an EQA go beyond conformance with the GIAS. An EQA provides independent and objective assurance to internal audit stakeholders that the governance, management, and services of internal audit are meeting best practice and the needs of the organisation.
- 2.24 However, the introduction of new requirements in GIAS, such as the essential conditions placed on the Resources, Audit and Performance Committee and senior management, introduce practical challenges for multi-client providers (MCPs) such as the Southern Internal Audit Partnership which need to be considered.
- 2.25 The involvement of the Resources, Audit and Performance Committee and senior management can now present challenge for MCPs who have historically arranged one EQA to cover all clients. MCPs now need to consult with every audit committee they provide services to and provide individual reports, increasing the workload and costs which have not been previously factored.
- 2.26 There remains ongoing consultation, however, engagement with each of the potential assessors has made clear our operating model, position as a multi-client provider and need to ensure a robust process to demonstrate conformance on which all of our partner organisations can place reliance.

Recommended Approach

- 2.27 It is recommended that the Southern Internal Audit Partnership conduct their external assessment as a Self-Assessment with Independent Validation (SAIV) as outlined in paragraph 2.6.

2.28 The key drivers for the SAIV approach include:

- It is a recognised approach within the Standards, meeting the requirements of an external quality assessment.
- The approach requires external validation from an independent, qualified external assessor.
- Provides a more economical approach as a majority of information gathering is completed by the Southern Internal Audit Partnership. This is particularly pertinent due to our multi-client provider status.
- Minimises capacity implications for our Partners.

Next Steps

- Following receipt of quotations from the providers (detailed in paragraph 2.18) a full assessment of proposals will be undertaken with appointment based on:
 - Cost
 - Experience (profession and industry)
 - Qualification
 - Independence
 - Approach.

2.29 The successful provider will be commissioned to undertake the SAIV with a requirement for completion by December 2025.

2.30 The Southern Internal Audit Partnership have already compiled a full self-assessment against the Global Internal Audit Standards in the UK Public Sector during July / August 2025 in preparedness for the external assessor.

2.31 A copy of the external assessor report will be presented to the first meeting of the Resources, Audit and Performance Committee in 2026. Additionally, an action plan for review and approval will be presented by the Chief Internal Auditor to address any identified deficiencies or opportunities for improvement, if applicable.

Conclusion

2.32 To accord with the Global Internal Audit Standards in the UK Public Sector the Head of the Southern Internal Audit Partnership has put in place arrangements for a SAIV to be conducted during November / December 2025.

2.33 In accordance with the Standards and the Internal Audit Charter outcomes will be fully reported to the Resources, Audit and Performance Committee following receipt of the assessor's final report.

3 Additional Information

3.1 Provision for the delivery of Internal Audit is included within the Authority's Service Level Agreement with New Forest District Council.

4 Recommendation

4.1 **It is recommended that Committee members note the arrangements for the external assessment of the Southern Internal Audit Partnership against the Global Internal Audit Standards in the UK Public Sector.**
